NOTICE OF NONCOVERED REFRACTION SERVICES TO PATIENTS

Definition of REFRACTION: The refraction test is an eye examination that measures a person’s ability to see an object at a specific distance. Dr. Kern and/or associates can determine if you have nearsightedness, farsightedness, astigmatism (asymmetrical cornea), or presbyopia (inability to focus on objects that are close to you). This test helps confirm the extent of vision difficulty. The information obtained from a refraction test allows the prescription for eyeglasses or contact lenses to be correct for each person. This test can be done as part of a routine eye test to determine if a person has normal vision. When a person complains of blurred vision, this test can help determine the extent of poor vision. It can also be performed to help follow the progress of treatments for diseases of the eye such as cataracts. The test is also used to prescribe glasses if needed.

Medicare and most commercial insurance plans do not cover the above mentioned service. If Dr. Kern and/or associates determine that you need to have a refraction performed and your insurance does not pay for it, you will be held responsible for paying that portion of the exam fees along with any other fees you are normally responsible for (i.e. co-payments/deductibles).

By signing, I understand that the refraction may not be a covered service under my health insurance plan. If I want a glasses prescription update/renewal or other eye services performed today, I agree to pay any fees related to this non-covered service along with any other fees required by my insurance plans (co-payments/deductibles).

The Department of Health and Human Services has established a “Privacy Rule” to help insure that personal information is protected for privacy. The Privacy Rule was also created in order to provide a standard for certain health care providers to obtain their patients’ consent for uses and disclosures of health information about the patient to carry out treatment, payment and health care operations.

As our patient we want you to know that we respect the privacy of your personal medical information and will do all we can to secure and protect that privacy. We strive to always take reasonable precautions to protect your privacy. When it is appropriate and necessary, we proved the minimum necessary information to only those we feel are in need of your health care information and information about treatment, payment or health care operations, in order to provide health care that is in your best interest.

We also want you to know that we support your full access to your personal medical records. We may have indirect treatment relationships with your (such as laboratories that only interact with physicians and not patients), and may have to disclose personal health information for purposes of treatment, payment or health care operations. These entities are most often not required to obtain patient consent.

You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing. Under this law, we have the right to refuse to treat you should you choose to refuse to disclose your Personal Health Information (PHI). If you choose to give consent in this document, then, at some future time, you may request this health care provider to refuse disclosure of your (PHI). You may not revoke actions that have already been taken which relied on this or a previously signed consent.

If you have any objections to this form, please ask to speak with our HIPAA Compliance Officer.

You have the right to review our privacy notice, to request restrictions and revoke consent in writing after you have reviewed our privacy notice.

INFORMATION ABOUT DILATION

DILATING DROPS ARE NECESSARY SO THAT THE OPHTHALMOLOGIST CAN GET A GOOD LOOK AT THE INNER EYE STRUCTURE TO MAKE SURE THE EYE IS HEALTHY. MANY EYE DISEASES MAY NOT MANIFEST SYMPTOMS BUT CAN BE DETECTED WITH DILATION.

DILATING DROPS ARE MEDICATION USED TO MAKE THE PUPILS BIGGER IN ORDER TO GET A BETTER VIEW OF THE INTERNAL STRUCTURES OF THE EYE.

DILATING DROPS USUALLY TAKE 20-30 MINUTES TO START WORKING. WHILE DILATING DROPS ARE WORKING, YOU WILL SENSITIVE TO LIGHT AND MAY NOTICE DIFFICULTY FOCUSING ON OBJECTS UP CLOSE.

 THESE EFFECTS CAN LAST FOR SEVERAL HOURS DEPENDING ON THE STRENGTH OF THE DROPS USED.

DILATION IS VERY IMPORTANT FOR PEOPLE WITH RISK FACTORS FOR EYE DISEASE.

No Show Fee Policy

Each time a patient misses an appointment without providing proper notice, another patient is prevented from receiving care. We reserve the right to charge for these occurrences. Due to high patient demand, and limited availability of appointments we have instituted a $75 no show fee. You must give 24 hour advanced notice to cancel appointments. Failure to do so will result in a $75 fee charged to your account.

By signing below, I acknowledge that I have read and understand this policy.
